

How to draw my Snowman directions:

Hi my name is Morgan 21 B, and this is how to make my snowman.

1. First go to the fill bucket and pick the color indigo. Then go to shapes and pick the circle, make it black along with all the rest of them. Then draw a circle that is about 3 ins. long. Then go back to shapes and get another circle and make it about 2 ins. and another on top of that that is about 2ins. long measure the in width. Put them in the middle of the screen on the bottom.
2. Then go to the pencil and pick the color medium red and draw a scarf. To make the scarf you need to make a smallish upcurving line under his head and one about one centimeter under the first one. Then when you are done you make your pencil mark about 0.25 ins. across and make yellow and red stripes.
3. Then go to the pencil again and make the pencil thickness about 0.2 and the color bright red. Then right above the scarf draw an upcurving line and straight lines at each end.
4. Then go to stamps and go down to the chili pepper and put it a little above the smile. Then click on the pepper and go to the colors and pick mild orange. After you do that, make the stem of the chili pepper white.
5. Then go to stamps again and pick the sun glasses and put them a little above the nose. Then go to colors again and pick regular plain blue.
6. Then go to pencil and pick the color brown and draw sticks on each side of his middle pointing down.
7. Next we are going to make a broom, draw a brown line about 5.5 ins. down from the arm on the right side of the snowman.
8. Next make the color medium yellow and draw half a circle at the bottom of the stick you just drew.
9. Then make your color black and draw, from the bottom of the yellow of the broom and up, three lines a little bit away from each other.
10. Next we are going to make a hat. Now go back to color and make it the same yellow that you did to draw your broom and draw an oval about 1.5 and about .5 of an inch if you measure it diagonally.
11. Then make your color mild but brightish pink and go to stamps and pick the Hawaiian flower and put it on the right side of your hat.
12. Then make the color mild green and, from the left side of the flower, draw three little green lines.
13. Next, make the color lime green, and make 6 free-handed buttons straight down the middle of his whole body.
14. Then go to stamps again and pick the snowflake and make them about .5 of an inch long and make them black.
15. Then put them all around the snowman and leave a little bit of space in the left hand top corner.
16. Then go to stamps and pick the snowflake once again, but this time make them white and put them over the black ones but leave a little bit of black snowflakes to see under the white.
17. Then go to and make your shape the circle and make the color cream and make it about .5 ins. long then drag it to the left hand corner but only let one-fourth of it show.
18. Now, go to stamps and pick the snowflake again but this time make the color white and put white snowflakes over the black ones but leave a little black to see.

Now you've got your snowman!
